

Lighting Products

Lidacel offer a wide variety of quality lighting solutions. Our product portfolio includes some of Europe's premier lighting brands that cover educational, retail, commercial, custodial, secure accommodation, medical and other architectural sectors.

The logos on the right are all hyperlinks to our partner websites. Please scroll down to the required manufacturer and click to be redirected to their websites for product listings, project references and technical information.

Working closely with design teams and end users we also develop custom products to suit individual project requirement. We offer a full lighting design service and advice, backed up with AutoCAD & REVIT to complete the package. .

We stock and distribute a comprehensive range of products which include.

- Interior and exterior lighting
- Standalone and Intelligent lighting control solutions
- Commercial office, architectural feature and Industrial lighting
- Emergency lighting - Addressable and conventional
-
