

Lighting Products

Our lighting division offers a wide variety of quality lighting solutions. Our product portfolio includes some of Europe's premier lighting brands that cover the retail, commercial, medical and architectural sectors.

Working closely with design teams and end users we also develop custom products to suit individual project requirement. We offer a full lighting design service and advice, backed up with AutoCAD design to complete the full design service.

We stock and distribute a comprehensive range of products which include.

- Interior and exterior architectural lighting
- Intelligent fluorescent lighting solutions
- LED Systems
- Custom designed solutions
- Retail and Commercial lighting
- Industrial and hazardous area lighting
- Energy management luminaire and lighting Controls
- Emergency lighting - Addressable and conventional
- Lamps
