

## Data Products

LIDACEL's Data-networking division offers a broad portfolio of products for IT infrastructure. Our range includes:

- Cat5E & Cat6 cables, patchleads, components and systems
- Fibre Optic cables, terminations, leads and splice trays
- Cabinets, Racks, Power distribution units and management
- Home Networking

Our main offering to market is the Hubbell component compliant structured cabling system. With our certified installers we can offer a 25 year Misson Critical warranty. A recent interesting addition to our mix is the innovative Patchsee range of voice and data patchleads, with built in light identification system. Making network moves and changes faster and easier to manage.

We offer an unrivalled specialist cables sourcing service, with many years of experience and an in-depth product knowledge and expertise. We source from partner suppliers in the UK, Mainland Europe and the US.
